

## HOUSE TRAINING

1. **Name it** - "Do Your Job", "Go Pee"
2. **Reward Instantly** - The second your dog is done, give them a tiny bit of a treat (the size of a cheerio). Praise your dog, "Good Girl", "Hooray" and give her a kiss on the head or a pat.
3. **Watch Like A Hawk** - Never let a pup out of your sight. Keep your puppy in a crate (plastic), outside in a safe area or in your sight at all times. Use a leash to tether your dog to a stationary object such as the couch, while you watch TV and give him 5 or 6 toys to play with.
4. **Interrupt** - If you catch your dog peeing, interrupt with an "oops" and quickly rush them outside to finish the job. Don't scold, scolding seems to teach a dog not to pee in front of you.
5. **Clean Up** - If your dog pees and you don't catch her in the act, first feel free to yell at yourself "why in the heck wasn't I watching my dog?" and then use an enzymatic cleaner like Natures Miracle or Simple Solutions to clean it up. Sounds simple right? Well it is. Don't mistake simple for easy though! Most pups can pee faster than humans move, and keeping a pup in your sight at all times is easier said than done. Be gentle with yourself and your pup and you'll both be trained in no time!
