

THE ZEN LITTER BOX

The Basics:

- ☞ Cats have a better sense of smell than we do.
- ☞ Cats are finicky about cleanliness. A clean litter box is one that will be used.
- ☞ You can't scoop too much. Two times a day minimum.
- ☞

Tips for Multiple Cats:

Multiple cats need multiple litter boxes. Have one more box than you have cats. (2 cats = 3 boxes, etc.)

- ☞ Keep the litter boxes in different areas of the house.
- ☞ Scoop more than twice a day for multiple cats. Keep gallon baggies next to boxes. Scoop into bag, seal and then throw out at the end of the day.

What about the Box?

- ☞ Ever use a "Porta Potty"? That's what a traditional litter box smells like. Yuk! Lids off!
- ☞ Try plastic storage boxes with flat bottoms and high sides. (Some cats are just "high pee'ers." They don't mean to make a mess; the box is just too short.)
- ☞ Empty the box totally at least once a month and clean with a gentle non-ammonia cleaner.

The Scoop on Litter:

- ☞ Whatever your cat likes is the best of course.
- ☞ Do try a litter made of something other than clay. It's better for your cat's lungs and bet environment.
